Cancer Cure

Where an open sore use
2 ounzes of pulverised Calamine
1 " " white lead
1 " " Copperas
and enough cotton seed oil
to make a past, Put this on
rags and apply to the sore
for seven days on the
ninth day it will begin
to loozen around the edge
and pieces will come off
when the cancer is all killed
the surface of the sore will
appear like red rice. then
any good salve can be app-
lied and the sore will heal
rapidly.

If the cancer is not
an open sore but a large

dark red lumps apply
a paste mad of one teaspoon
-ful of honey one tablespoon
-full of thick cream and
enough rye flour to make
a ~~paste that~~ can be spread
on cloths and put on the
swelling. This is a slow
process but in time is
a sure cure
